

**SUBJECT:** Professional Development Request: HSLP Certification

Hi [Supervisor Name],

I recently came across the [Healthcare Safety Leadership Professional \(HSLP\) credential from LHA Trust Funds](#) and am interested in registering for certification. Would [Your Organization's Name] be able to sponsor me?

The HSLP credential is specifically designed for healthcare professionals working in risk management, patient safety, organizational safety, and regulatory compliance. It focuses on practical, real-world topics like incident management, cybersecurity, and clinical risk reduction—areas that directly impact the work we do.

I think this could better position me to lead our team in identifying risks earlier, improving our safety processes, and contributing to organization-wide compliance efforts.

The best part is, the exam is only \$275 for LHA Trust Funds members and \$425 for non-members. It's also self-directed and flexible, so I could complete the certification alongside my current responsibilities.

Let me know what you think!

Best,  
[Your Name]
