

Workplace Safety Funds Grant Program

Enhance Safety. Earn Rewards.

Have a safety initiative in mind for your facility? We want to help.

Through our Workplace Safety Funds grant program, member facilities can receive reimbursed funding to implement innovative solutions that enhance workplace safety. This is a valuable opportunity to address employee safety risks unique to your organization and improve the overall well-being for your team.

Who is eligible for the Workplace Safety Funds Program?

To be eligible to participate, you must be a member of the LHA Workers' Compensation Fund with premiums in excess of \$10,000.

What is the purpose of this program?

The Workplace Safety Funds program provides financial reimbursement & support for members who are implementing safety initiatives that help reduce employee injuries and illnesses.

How do I participate?

To participate, submit a project idea that will help improve employee safety at your organization. Your project should address the unique safety needs of your organization in some way. Proposals should target any area that impacts workplace safety, such as safe patient handling and mobility, lifting materials safely, preventing workplace violence, reducing slips, trips, and falls, and minimizing sharps and needlestick injuries.

Most initiatives aimed at lowering employee safety risks will be eligible. You may focus on a single issue or combine multiple areas in your project. Please note that all projects must receive prior approval to qualify for funding. To request approval, contact Stacie Jenkins, Vice President of Patient Safety and Risk, at StacieJenkins@LHATrustFunds.com.

EXCLUSIONS:

- Repair of existing property or premises
- Salaries/Benefits for new positions or staff
- Weapons
- Continuing education conferences
- New construction

Can't Decide? We Can Help.

Give us a call and based upon recent risk assessments at your facility, we can provide suggestions for initiatives that will target your needs or we can identify trending exposures and other employee safety strategies.
